Huge interest in the RETTmobil exhibition 2021

The international leading exhibition for rescue and mobility

Intensive work is going on behind the scenes to let the RETTmobil become an international success in the next year. The first signs are more than promising.

„The interest in the RETTmobil exhibition 2021 is extremely high“, says with pleasure Manfred Hommel, Executive Director of the Messe RETTmobil International GmbH which is organizing and executing the event. „We are every day receiving inquiries of companies which want to exhibit in Fulda next year“, says Hommel. More than 240 exhibitors confirmed their participation, therefore Hommel can already look on a very good booking situation. Closing date for exhibitors is 30th November 2020.

The fact that the name RETTmobil International was rightly chosen, gets also confirmed by the interest of the exhibitors from abroad. For many years, companies from all over the world are gladly utilizing the exhibition center Fulda to present their products and services as well as get in contact with experts at the RETTmobil exhibition.

„Companies from Italy, Russia, China and the USA already confirmed their participation at the RETTmobil exhibition 2021“, Manfred Hommel lists examples. More participants from abroad are following. In many countries the economic situation is starting to increase but now after the compulsory break. Therefore, the RETTmobil exhibition from 5th to 7th May 2021 is the first opportunity for the industry to present itself to a large specialist audience on a national and international level. The aid and rescue organizations as well as the fire brigades will also participate at the exhibition.

One thing is certain: Corona will accompany the RETTmobil exhibition 2021. „But then hopefully as an appearance which we can reliably control“, says Manfred Hommel. The hygiene and safety concept developed by the exhibition organization will be discussed with the responsible public authorities in Fulda and adapted to the current situation. In any case, Corona will be thematically a part of the training and symposia. Among other things, the exhibition organization is in contact with the Fulda Clinic for that reason. „Hygiene is very important to us“, assures Hommel, „for the organization of the RETTmobil exhibition as well as thematically for our training and symposia.“
