OUR TECHNOLOGY FOR YOUR EMERGENCY

Thanks to our individual and functional solutions, we are the pioneers in the medical technology for mounting systems.

Starting with the idea up to the finished MDR approved medical product, we develop products that are groundbreaking, functional and meet the highest standards

"Made in Germany".

TECHNOLOGY FOR EMERGENCY

Every second counts.....

In the case of an emergency, functionality and operability always must be prioritized. For this reason, at MCS our mission is to develop innovative solutions with the highest technical standards to help making everyday life in the medical sector easier.

For the first time, we will introduce you to our newly developed stretcher accessories and welcome you to our booth!
