### **RETTmobil exhibition 2022: All lights are green**

A good quarter of a year before the start of the RETTmobil exhibition 2022 (11th to 13th May), preparations are going according to plan.

Despite the constantly changing Corona situation, the organizers of the international leading exhibition for rescue and mobility are well prepared.

„We are continuously monitoring the development of the Corona situation and will coordinate all necessary measures with the responsible local authorities“, says Manfred Hommel, Executive Director of Messe RETTmobil International GmbH. „Our overall concept, especially with regard to hygiene regulations, is set up in such a way that we can react immediately to almost all developments. On our part, all lights are green“, says Hommel happily.

The preparations are in full swing. Everything is focused on 11th May 2022, when the RETTmobil exhibition can open its doors again at 9 a.m. for the first time since 2019. Over 400 exhibitors from 25 countries have confirmed their attendance, including from the USA, China and Russia. One focus is traditionally the leading industry representatives from Germany and Europe.

„Several times a week, we still receive inquiries from companies that absolutely want to be represented with a stand at the RETTmobil exhibition“, says Manfred Hommel. „We've actually been booked up for quite some time.“ The entire team of Messe RETTmobil International GmbH tries to find appropriate solutions for all inquiries.

Visitors can therefore look forward to a highly interesting RETTmobil exhibition. In addition to numerous new products and innovations, there will again be an extensive specialist program. Further training, workshops and the new format “Meet the Experts” as well as demonstrations and the well-known off-road course are in the final stages of planning. More information on this shortly on the Website of the RETTmobil exhibition [www.rettmobil-international.com](http://www.rettmobil-international.com).
